

El Tejon Unified School District

2023/2024 School Year

Dear Parent or Guardian,

The Healthy Schools Act of 2000 requires all California school districts to notify parents and guardians of pesticides they expect to apply during the year. We intend to use the following pesticides in your school this year:

Structural Pest Controls

Name of Pesticide (Common Name)	Active Ingredient(s)	EPA Number
Termidor SC	1,2-benzisothiazol-3(2H)-one	7969-210
Suspend	Delthamethrin	452-763
ULD BP 100 (fog)	Pyrethrins, Piperonyl butoxide	499-514

Landscape Pest Controls

Name of Pesticide (Common Name)	Active Ingredient!(s)	EPA Number
Prozap Zinc Phosphide pellets	Zinc Phosphide (Phosphine) 2.0%	61282-49
Wilco Ground Squin-el Bait	Zinc Phosphide pellets (Phosphine) 2.0%	36029-20
Bell Labs PCQ Rodent Bait	Diphacinone	12455-50003-AA

You can find more information regarding these pesticides and pesticide use reduction at the Department of Pesticide Regulation's web site at: <http://www.cdpr.ca.gov>

If you have any questions, please contact:

Kevin Royle

(661) 248-6247 xl

El Tejon Unified School District

2023/2024 School Year

Dear Parent or Guardian,

At your request, we are writing to notify you about a specific pesticide application(s) at your school. Please see below for detailed information. If you would like to see the Material Safety Data Sheet for this chemical, it is available at:

El Tejon Unified School District
District Office
4337 Lebec Road
PO Box 876
Lebec, CA 93243-0876

If you have any questions, please contact:

Kevin Royle
(661) 248-6247 xl

Sincerely,
Kevin Royle

Notice of Pesticide Application

Date Form Completed:

Date Name:

Location of Planned Pesticide Application: _____

Building Name/Number: _____

Playground or Grounds Section: _____

Name of Pesticide To Be Applied: _____

Active Ingredients(s): _____

Planned Date/Time of Pesticide Application: _____

You can find more information regarding these pesticides and pesticide use reduction at the Department of Pesticide Regulation's web site at <http://www.cdpr.ca.gov> and click School 1PM.

El Tejon Unified School District

2023/2024 **School Year**

Dear Parent or Guardian,

The Healthy Schools Act of 2000 was signed into law in September 2000 and requires that all schools provide parents and guardians of students with annual notification of expected pesticide use on school sites. The notification will identify the active ingredient ingredients in each pesticide product and will include the Internet address (<http://www.cdpa.ca.gov>) for further information on pesticides and their alternatives. We will send out annual notifications starting _____

Parents and guardians may request prior notification of individual pesticide applications at the school site. Beginning _____, people listed on this registry will be notified at least 72 hours before pesticides are applied. If you would like to be notified every time we apply a pesticide, please complete and return the form below and mail it to:

El Tejon Unified School District
4337 Lebec Road
PO Box 876
Lebec, CA 93243

If you have any questions, please contact:

Kevin Royle, El Tejon Unified School District
(661) 248-6247 x1

Request for Individual Pesticide Application Notification

I understand that, upon request, the school district is required to supply information about individual pesticide applications at least 72 hours before application. I would like to be notified before each pesticide application at this school.

I would prefer to be contacted by (check one): U.S. Mail E-mail Phone

Please print neatly:

Name of Parent/Guardian: _____ Date: _____

Address: _____

Day Phone: () _____ Evening Phone: _____

E-mail: _____

Please return to:
El Tejon School
4337 Lebec Road
Lebec, CA 93243

Information Sheet about the Healthy Schools Act For Parents, Guardians, School Staff

The Healthy Schools Act (HSA) requires public schools and child care centers to notify parents or guardians and staff about pesticides used at schools and child care centers. Each school district and child care center must meet certain requirements of the law:

Annual notification. Parents or guardians and staff will receive written notification of all pesticide products (except those that are exempt*) expected to be used in the upcoming year. These products include over-the-counter pesticides, along with those applied by licensed pest control businesses. This notification must list the product name, the active ingredient(s), and the Department of Pesticide Regulation's (DPR) School IPM website.

Registry. Parents or guardians and staff can register to receive notification about individual pesticide applications before they occur.

Warning signs. School or child care staff must post warning signs at each area where pesticides will be applied. These signs must be posted 24 hours before each application and must remain posted for 72 hours afterward.

Recordkeeping. School or child care staff must maintain records of all pesticides used at the site for four years and make the records available upon request. Contact your child's school district or child care center to learn more about how these requirements are met.

The HSA also requires DPR to encourage California schools and child care centers to start their own integrated pest management (IPM) programs. To learn more about IPM resources and the Healthy Schools Act, visit DPR's School IPM website at www.cdpr.ca.gov/schoolipm or e-mail the DPR School IPM Program at school-ipm@cdpr.ca.gov. On the School IPM website, you'll find:

Model School IPM Program Guidebook. DPR developed and continues to update this guidebook to assist schools and child care centers with establishing an IPM program.

Pesticides exempted under the HSA. A step-by-step guide to determine if a particular pesticide product is exempt from the recordkeeping, posting, and notification requirements of the HSA.

School IPM Training. DPR offers IPM training for school districts and child care centers throughout California. To see if your child's school district has attended a DPR School IPM Workshop, check the *School Districts Trained in IPM* list at: http://apps.cdpr.ca.gov/schoolipm/training/trained_districts.pdf

* The exemption applies to a pesticide product deployed in the form of a self-contained bait or trap, to gel or paste deployed as a crack and crevice treatment, to any pesticide exempted from regulation by the United States Environmental Protection Agency pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. Sec. 136 et seq.), or to antimicrobial pesticides, including sanitizers and disinfectants. For more information, visit DPR's School IPM website, www.cdpr.ca.gov/schoolipm, and click on "Pesticides Exempted under the Healthy Schools Act" in the right-hand column.

**Pesticide Products Prohibited From Use in
California Schools and Child Care Facilities
Pursuant to Assembly Bill 405 (Montanez) - Chapter 566, Statutes of 2005**

The following pesticide products meet the criteria of Education Code 17610.1(a), and therefore, are prohibited from use on schoolsites. Also prohibited are all pesticide products that are canceled or suspended by the California Department of Pesticide Regulation, or are under phaseout of use. To check the registration status of a product, search DPR's Product/Label Database:

<https://www.cdpr.ca.gov/docs/label/labelque.htm>

Product Brand Name	EPA Registration Number
Afla-Guard GR	100-1469-AA
Amplitude	84059-28-ZA

Verdepryn 100SL Insecticide	71512-34-AA-88783
Zio Fungicide	67690-77-AA

Any vendor or manufacturer of pesticides is prohibited from making these pesticides available to a school district by sale or gift.

The aforementioned pesticide products are prohibited from use on "schoolsites" in accordance with California Education Code section 17610.1(a) because they are registered for use in the State of California either (1) conditionally\ (2) as an interim registrationii, or (3) under an Experimental Use Permit (EUP)iii, and contain either a new active ingredient or are intended for a new use. (Note: conditionally registered pesticide products that are for a new use and have fulfilled all registration requirements that relate to human health are exempted.)

The term "schoolsite" is defined in California Education Code section 17609 as any facility used for child care (other than family day care homes), or for public kindergarten, elementary, or secondary school purposes. The term includes the buildings or structures, playgrounds, athletic fields, vehicles, or any other area of property visited or used by pupils. A "schoolsite" does not include any postsecondary educational facility attended by secondary pupils or private school facilities.

Please note that DPR updates this list quarterly and it may not be an exhaustive list of all the pesticide products that meet the criteria of Education Code section 17610.1(a).

If there are any questions about this list, please contact:

Chelsea Raycraft, Database Steward
 Department of Pesticide Regulation
 Pesticide Registration Branch
 Phone: 916-324-3466
 Email: Registration.Databases@cdpr.ca.gov

¹ California Code of Regulations section 6200 authorizes the Director to waive specific data requirements for pesticide product registration for a limited period of time to allow for generation of incomplete data. Most conditionally registered pesticide products are registered as such based on missing efficacy or phytotoxicity data.

n Interim registration is established in Food and Agriculture Code sections 13161-13P0. The statute allows an applicant for registration of the first agricultural use of a pesticide active ingredient to defer submission of no more than three efficacy or environmental fate studies (e.g., soil photolysis study, field dissipation study) for a period not to exceed three years, provided certain criteria are met. The product must be a significant component of an integrated pest management system, and reduce risk to the public and the environment. In addition, all data submitted to the U.S. Environmental Protection Agency (U.S. EPA) to support federal registration must be submitted to DPR, and the product must not be expected to have a significant adverse effect on public health or the environment, or threaten to pollute groundwater.

iii Experimental Use Permits (EUPs) are defined in federal statute (Federal Insecticide, Fungicide, and Rodenticide Act, Section 5). U.S. EPA issues EUPs; however before an EUP pesticide can be sold or used in California, it must also be registered with DPR. Restrictions are placed on the use of the pesticide, including an expiration date, limit on total amount of product to be used, limit on total number of acres to be treated, and a requirement for quarterly reports. Once registered with DPR, the product may be sold to specific California researchers to be used in research trials; however the products are NOT available to the public.
